

METAL SHARK
METALSHARKBOATS.COM

Position: Yacht Designer

Position Summary:

Metal Shark is a fast-growing company and prides itself in offering revolutionary design to the marine industry. We are looking for an Industrial Designer/Yacht Designer/Concept Designer to drive new product development. The individual will be responsible for creating avant-garde vessel designs, developing concepts from sketches to 3D models. The position reports to the Senior Manager of Engineering.

Minimum Requirements:

- A minimum of 3 years of experience as a boat, yacht, or ship designer
- Prior experience in exterior surface design
- Highly proficient in the following software
 - AutoCAD
 - Rhino 3D

Responsibilities:

- Develop 2D and 3D concept designs to fit the customer's mission profile.
- Produce high quality exterior and interior renderings
- Develop accurate design configurations for customer sales quotations through use of CAD software (AutoCAD and/or Rhino3D)
